Annual Report 2017

In 2017 Heart-Song, Inc. continued to be financially sustained through gifts and resources of people in our local community and beyond. We were blessed with support from private individuals, a corporation through its employee matching opportunity, and The Troy Foundation through its end-of-year matching opportunity. We have maintained our pledge to maximize the impact of what we are given.

Heart-Song also continued the “pay-it-forward” philosophy. After experiencing programs, the participants had, and will continue to have, the opportunity to give monetarily which helps others move forward with purpose. This policy supports our belief that mission- and vision-aligned individuals, families, and organizations create a stronger community. Heart-Song, Inc. is a foundationally strong non-profit corporation that practices doing more with less.
